PCI Apply 4.0

Aperia's PCI Apply 4.0 simplifies PCI DSS compliance for you and your merchants with a user-friendly platform that converts portfolios into streamlined SAQs—all while earning recurring revenue.

Merchants struggle with the complex requirements of PCI DSS. Unfortunately, this often results in high levels of non-compliance and increased risk. However, keeping up with compliance statuses and requests across your entire portfolio of merchants is time-consuming and costly.

PCI Apply 4.0 provides an out-of-the-box solution that simplifies compliance management while reducing friction for your merchants. The guided step-by-step process and intuitive interface help merchants identify and complete the correct SAQ. Combined with U.S.-based phone support, Aperia ensures each merchant's experience is stress-free so they can achieve compliance faster.

> Over 50% of merchants become compliant after calling our U.S.-based phone support center

How PCI Apply 4.0 Works

1. Easy Onboarding

Launch your branded merchant portal, ready-to-go with pre-populated merchant data.

2. Guided Compliance Transition

Support your merchants through the transition to PCI DSS 4.0 with in-app, step-by-step guidance and high-quality, U.S.-based phone support.

3. Manage Compliance Validation

Utilize detailed dashboards and reporting tools to easily assess your merchant portfolio at a glance.

4. Earn Recurring Revenue

Offer your merchants more value with a simplified solution for compliance while generating new income.

PCI Apply 4.0 Benefits

1 Minimize Onboarding Lift

Getting started is as easy as sending a file of your merchant names and MIDs. Aperia creates your branded portal pre-loaded with your merchant data, making onboarding quick and easy.

2 Simplify Managing Compliance

Remind your merchants of compliance deadlines with automated email communications, and easily track the status of each merchant in your portfolio with comprehensive dashboards and reporting.

3 Reduce Friction

Simplify the process of PCI compliance for your merchants with a guided step-by-step process and U.S.-based phone support when they need it.

4 Transition Seamlessly

Remove the complexity of transitioning to PCI 4.0 with tools that reduce manual effort.

PCI Apply 4.0 Features

Guided SAQ Process

Reduce the time and effort required for merchants to complete Self-Assessment Questionnaires (SAQ) and speed up the compliance journey.

Leverage Past Questionnaires

Ensure a seamless transition from PCI 3.2.1 to PCI 4.0 with in-app mapping that leverages past work on SAQs.

One Call Resolution

Merchants can receive assistance in multiple languages and resolve issues in an average of 23 seconds with one call to our U.S.-based phone support center.

Customizable Dashboard & Reports

Getting started is as easy as sending a file of your merchant names and MIDs. Aperia creates your branded portal pre-loaded with your merchant data, making onboarding quick and easy.

Aperia Compliance, an IXOPAY company, is a leader in Payment Card Industry (PCI) validation and risk management, providing PCI Level 3 and 4 compliance for ISOs, payment processors, and small and medium-sized businesses.
